“Catch the Wave…. Products, Services and Technology Every Practice Can Use”
Moderator: Dovetta Johnson

Our industry is moving faster than ever before and products, technology and innovative services are leading the way. The dental industry continues to align itself with the momentum. To make sure you are able to bring your patients along during this exciting time, you need to see and source the latest the industry has to offer. For approximately 10 minutes, each company will present a product, technology advancement or service and related research in an informative, obligation-free way. Join your colleagues in the NDA Product Theater to learn how to enhance your practice and patient experience.
